17 August 2020, Monday

The glow-giving Gucci Beauty summer collection has arrived in KL!

You may already have your beach vacay planned and we think these are what you should put onto your packing list.

Gucci Beauty (@guccibeauty) presents **Summer 2020 collection**, and it's all about that summer glow. Joining the existing Gucci Beauty makeup line is **Poudre De Beauté Éclat Soleil**, the bronzing powder that delivers a sheer, natural sun-kissed glow to your look with just a sweep.

While the heat of summer may makes you think twice about putting on another layer of products to your skin, the bronzer prioritises the well-being of skin with a **lightweight, hyaluronic acid and shea butter-infused formula**.

Encased in gold trim refillable compact, Poudre De Beauté Éclat Soleil is currently available in five warming shades to play with, use it alone as a suncatcher or layer it to achieve breathable refined complexion.

Bronzer aside, the collection is completed with the comeback of **the Gucci nail polish**, adding a dash of spice to this summer. Inspired by the vintage nail polishes, the **Vernis à Ongles** capsule collection features five delight, dramatic colours with a glossy, high shine finish.

All in all, it's all about the glowing beauty befitting the summer weather and a perfect fit for Malaysia, where we have warm tropical days all year round.
